

Graphology Study at a Glance

Graphology is an endeavour to correlate handwriting features with personality traits. It is the study of handwriting that aims to understand a person's character, temperament, behaviour, and attitudes through the unique features of their writing.

Handwriting Analysis is a systematic approach to identifying, assessing, and understanding an individual's personality by examining the strokes, formations, and patterns found in their handwriting. It is essential to recognize that Handwriting Analysis is different from Forensic Document Examination, as the two fields serve entirely different purposes.

Your handwriting reflects who you are and provides valuable insights into your personality and behavioural patterns. Handwriting Analysis is founded on research carried out over many centuries. It is not intended to predict the future or provide any form of forecasting.

A signature, on the other hand, is the essence of your public self-image. It reflects how you present yourself to the world, how you interact with others, and, in simple terms, represents your social persona.

Every signature is unique because it reveals how you want others to perceive you, which may not always be an accurate reflection of your true personality.

A signature provides insights into three important aspects: how you see yourself in public, how you would like others to see you, and how you believe others actually perceive you.

Let's look into Signatures

Dot After Signature

OR

Reflects an impulsiveness to come to an end, to have the final word and cut off further interaction. It can also indicate distrust ?????

1. Needs Closure in Everything.
2. Doesn't leave things unfinished.
3. Can be rigid under pressure.

P.S. Handwriting and signature samples are either Created or used from the samples received for Analysis with prior permissions from respective Clients.

No Dot Signature

Manjiri Singh

-
1. Goes with the flow.
 2. Open-minded.
 3. Hates being boxed in.

Circle or Loop at End

Vikram Patel

-
1. Self contained.
 2. Warm but guarded.
 3. Protective of loved ones.

Large First Letter

-
1. Strong ego and pride.
 2. Natural authority.

Small First Letter

aarush Sharma

OR

Does this mean the writer
wants to keep his self image
low in social network ???

OR

The self esteem is low of this
writer ?????

-
1. Seeks approval.
 2. Undervalues themselves.
 3. Holds back their power.

Creative/Decor First Letter

OR

Its just that the person
signing in creative manner
means he/she presents or
express in a dramatic way at
all time to seek attention

?????

1. Loves to be unique.
2. Creative.
3. Secretly wants attention.

Underlines Signature

OR

Consider just that the person
putting underline has High
Self Esteem **?????**

-
1. Self assured.
 2. Quietly confident.
 3. Knows self value.

Double Underline Signature

Amul Kulkarni

OR

My thoughts precisely...
Nevertheless, one credit I'll give this place is for its absolutely super weather! Especially now, the chilly mornings and the nip in the air is to comes as such a relief from the scorching sun.
I know this piece is going nowhere. But it wasn't suppose to anyways. Too bad if you were expecting to make some sense out of it all - my very demented mind has a mind of its own - if you know what I mean.

Crushing base line/ Suicidal base lines

- Have tendency to take serious steps in life

"DEAR MOM, DAD, SAL, SAMMY:
- SORRY ABOUT ALL this CRAZINESS, I've been miserable
for so LONG NOW, I HAD enough. THANKS for everything,
I can't do life in prison. Most of the stuff you will hear,
is true, except the child porn, I would never do that. Use
the pics with me and [redacted] for the funeral, that was the only time
in my life where I was truly happy. I want [redacted] to help plan
everything with you, tell her I'm sorry and I love her. She was
so good to me, we had a AMAZING life. I [redacted] it up, she only
did good for me, I dug myself in a deep hole, this is the only
choice. I love you guys.!!

P. S. This handwriting sample is being shared form study material
Just for reference and only the crushing base line to be
Observed here. Not the letter formation of the content on letter.

Convex Base Line

- Easily give up attitude
- Not a good finisher
- Fading of initial enthusiasm and energy
- Lack of stamina

This is a convex baseline

P. S. Handwriting and signature samples are either
Created or used from the samples received for
Analysis with prior permissions from respective
Clients.

Graphology is Vast

At **Happi Graph** we made it interesting journey, like learn, earn, reinvest in yourself and build a powerful side hustle or domain expertise.

What you learnt here in these few slides is just 1% of actual Mastering in Graphology

Thank you
